ITEM # atssal7

The Service Animal Alert System plays a 6 second user recorded emergency message over and over again while calling each number. This

feature insures that the receiver of the call will hear that message. When the receiving party answers the call and presses any key on their phone, a 45 second speakerphone conversation will start. This 45 second talk time can be extended for 1 minute as many times as needed for the conversation.

Wall Mountable (2 screws included) Capable of dialing a 16 Digit Telephone Number. - Big Buttons for Programming. (Great for seeing the numbers during the easy setup) Battery Backup for up to 12 hours (Uses 4 AAA batteries - not included) (You can still call out in the event of a power outage) In-Use Indicator (Visually shows you that the system is operating) Low & No Battery indicator (You will know when it is time to change the backup batteries) 2 Way Speakerphone for clear 2 way voice communication between the console and the

receiver of the call
