

Emergency Connect Medical Alert Package with Vibrating Water-Proof Pendant/Panic Button Digital Answering Machine and Big Button Cordless Extension Phone

The **ATS6800MA** is the most versatile amplified telephone on the market. Featuring the unique amplified corded/cordless pairing plus a multipurpose alarm transmitter, the ATS6800MA is the perfect solution for those who need quick dialing or easy answering.

Besides the flexibility to talk on either 50dB telephone, in the case of an emergency, the user can activate the alarm button on the water-proof pendant/panic button which will dial up to 3 pre-programmed numbers at the touch of a button.

Additionally, users can be notified of incoming calls through a vibration of the pendant/panic button and can even remotely answer calls by activating the speakerphone on the base of the corded phone with the touch of a button. The big button corded base has an integrated digital answering machine, talking buttons and talking Caller ID. The big button cordless handset incorporates crystal-clear DECT 6.0 technology for interference-free conversations.

With superior hearing aid compatibility that meets and exceeds the TIA-1083 standard, the 680 produces excellent sound with more than 80% reduction of distortion. The ATS6800MA amplified telephone also has pre-programmed, multiple user profile buttons that memorize volume and tone control for more than one user.

Two year factory warranty

If you have lost your pendant or just want to purchase an additional water-proof pendant, simply add to your order. A total of 5 pendants can be used on this system.
