

Call By Name or Number

Have the ability to call any friend, family member or 911 directly simply by Speaking their Name or Number.

ONLY \$479.99 US + Shipping/Handling

*Prices are Subject to Change Without Notice

One touch calling
One-touch answering of incoming calls
Never have to dial a number
Speak the name or number to call.
Works with wall communicator or pendant.
Multiple users can use system.
Always have a water resistant phone on you.

How does it work? Easy.

Step 1. Press the blue button on the pendant.
Step 2. You will hear "Name to Dial Please".
Step 3. You speak the name or number you want to dial.

Unlike other alert systems that call your contacts one after the other, this allows you to call any name or number in any order. For example: if you have an emergency instead of waiting for the system to cycle through your contacts to reach 911 you can simply say '911' and it will dial directly to 911 without calling any other numbers first. This saves time in an emergency.

Save Time – Save time when contacting family or friends or even 911 because they are called directly instead of being connected by a call center. Minutes count in the event of an emergency. You can even answer phone calls and talk through the pendant just like using a cordless phone

Portable –Take this system with you when traveling to family or another location. Just plug it in and you are ready to go.
