

# Doze Alert and Nod-Stopper

(2 Anti-Nod Off Alert Devices)

The **Doze Alert** is a sleep warning device that you wear over your ear.

**The Doze Alert:**

Doze Alert helps prevent automobile accidents caused by falling asleep behind the wheel.

This device is lightweight, it's comfortable and you can wear it even while wearing glasses!

Catalog# ats4419DA

**Price: \$49.99 + Shipping**

The Doze Alert is a sleep warning device that you wear over your ear. Doze Alert helps prevent automobile accidents caused by falling asleep behind the wheel. This device is lightweight, it's comfortable and you can wear it even while wearing glasses!

Fatigue is difficult to measure, but it is clear that the performance of a fatigued driver can be similar to that of a person who has drank enough to exceed the legal blood alcohol limit. With the Doze Alert your risk of falling asleep due to fatigue is lowered.

The warning signal produced is 86 dB (2000 Hz.)

Once your head dips below a preset threshold, the Doze Alert signals with a loud beep.

The **NOD-Stopper** is a sleep warning device that you wear over your ear.

**The NOD-Stopper:**

The NOD-Stopper helps prevent automobile accidents caused by falling asleep behind the wheel.

This device is lightweight, it's comfortable and you can wear it even while wearing glasses!

Catalog# ats4419NS

**Price: \$29.99 with FREE Shipping**

The NOD-Stopper is a sleep warning device that you wear over your ear. NOD-Stopper helps prevent automobile accidents caused by falling asleep behind the wheel. This device is lightweight, it's comfortable and you can wear it even while wearing glasses!

**What are the differences between the Doze Alert and the NOD-Stopper?**

**Turning it on and off:**

Doze Alert requires you to open the battery compartment to turn it off. The NOD-Stopper has a power switch on the front of the unit.

**Alert Sound:**

The Doze Alert has an 85dB Alert, the NOD-Stopper has a 90dB alert.

**Angle of alert Adjustment:**

The Doze Alert has a slide switch to adjust the angle that the alert will sound. The NOD-Stopper does not have a switch to adjust the angle of alert. The user would need to adjust the positioning of the unit back or forward to adjust the angle of the alert.

**Latex:**

The Doze Alert is Latex Free. The NOD-Stopper is not Latex Free.

The **NOD-Stopper** is not only designed for drivers, its perfect for people who need to be on full alert while on duty such as security guards, machine operators and even students.

Fatigue is responsible for 100,000 crashes and 1,500 deaths a year. Chances are you are aware of the effects of sleep deprivation.

Don't let fatigue make you a statistic. Purchase the NOD-Stopper from ATS today.
