

Touch 'N Talk

The world's first programmable
2-way voice pendant communicator

NO MONTHLY FEES or CONTRACTS EVER!

Only \$279.95

*Prices subject to change without notice

Answer Your Phone *or* Call For Help With The Portable Long Range Alert Voice Communicator Pendant

Over 1,000,000 Feet of Total Coverage Area (that's 2 football fields of coverage)!

Personal security has never been so small or affordable. **Touch 'N Talk** is the first product ever to allow you instant 2-way speakerphone communication through your mini wearable pendant to family, friends or neighbors, at anytime, from ANYWHERE in or around the home or yard. If your programmed contacts are unreachable at the moment – the system *can optionally* default to contact a 911 emergency operator.

- Never be out of range from assistance again
- Up to 600 ft range (that's 2 football fields of coverage)
- Talk through the pendant
- It is *water resistant* - you can wear it in the shower
- It is also Pacemaker safe
- **Touch 'N Talk is a one-time purchase - never pay a monthly, activation or set up fee again**
- **Touch 'N Talk is yours to keep and use forever – once you purchase it, there is nothing more to pay**

What is included:

- Base unit that connects to the phone line
- Wireless pendant communicator
- Telephone cord
- 4 Rechargeable batteries for battery backup in the event of a power outage
- 2 Rechargeable batteries for wireless pendant
- Belt Clip
- Necklace Lanyard
- Wrist Strap
- Instruction manuals

Safety – Carry the emergency call button all over your home and yard with you, even in the shower

Save Dollars – With No Monthly Fees you will save hundreds of dollars each and every year when compared to the cost of a monitoring service

Save Dollars – What is the cost of an ambulance trip and an emergency room visit? By calling friends or family to help in the event of a fall, you can save an ambulance trip and hospital charges

Save Time – Save time when contacting family or friends or even 911 because they are called directly instead of being connected by a call center. Minutes count in the event of an emergency. You can even answer phone calls and talk through the pendant just like using a cordless phone

Portable – Take this system with you when traveling to family or another location. Just plug it in and you are ready to go

Comfort – Provides comfort by letting you speak to someone in the event of an emergency instead of pressing a button and waiting for help to arrive
