

Voice Controlled 25 Voice Reminder Alarm Clock

Totally Hands Free Operation Speaks The Reminder In Your Own Recorded Voice

Caregiver's lives can be a lot less stressful with this easy to use reminder clock. The caregiver at home or at a facility can record a reminder. An example could be "I love you Dad, it's time to take 1 blue pill and 2 yellow pills" and this is set for 8 am daily. The reminder can be turned off by touching the clock or by saying "reminder off". The reminder keeps being repeated intermittently for up to 30 minutes. It can also announce loud (you control the volume) personal messages preset to go off when you want: daily, weekly or at a certain date during the year. This is done in your own voice so it can be in any language. This is truly a talking reminder clock!

Only \$99.99 US + Shipping/Handling
