

The Battery Operated Wireless Sensor System

Works Up To 1/2 MILE Away

Always know way ahead of time when someone is approaching.

Don't be caught off guard by a delivery or visitor

How It Works:

When it detects motion from a vehicle or person while allowing small animals to pass undetected, the Wireless Sensor sends a signal to the receiver and the receiver will flash and alert.

Only \$98.77 U.S.+ Sales Tax /Shipping

*Price subject to change without notice

Item # ats2640

You'll Know You Have Visitors or Movement When the Chime Rings!

Guests Arrive	Deliveries are Here	Neighbors Visit	A Loved One is on the move	Someone's Leaving
--------------------------	--------------------------------	----------------------------	-------------------------------------------	------------------------------

The Wireless Sensor sends the signal to the receiver.

The receiver will flash the strobe light and alert you, letting you know it has detected movement

Included in the package:.
